Professional Experience

New York, NY | July 2024 - Present

Full-Stack Software Engineer | Global Payroll Platform & SUI | Justworks

- Building payroll, compliance, and money-movement systems supporting \$25B+ in annual payroll volume across 10K+ businesses and hundreds of thousands of employees globally
- Modernizing payroll infrastructure by standardizing three domestic and international payroll systems behind a single unified temporal system while preserving production reliability and correctness at scale
- Designed and delivered a Power of Attorney (POA) document workflow that automated state compliance operations, saving 11,000+ operational hours annually (~\$300K/yr cost reduction)
- Led end-to-end design and implementation of a high-performance SUI rates processing tool with dynamic inline editing, scaling to 300,000+ customer rates, and supporting \$50M+ in annual revenue
- Engineered secure, high-throughput payroll integrations across 8+ microservices (Ruby, Go, SQL), achieving 99%+ request success while handling 35M+ API requests per week

Software Engineer Intern | Benefits Billing Team | Justworks

New York, NY

June 2023 - August 2023

- Designed and shipped a full-stack internal tool utilizing temporal adopted weekly by 4+ internal teams to access customer-critical data updated async via Kafka consumers

Software Engineer Intern | Employer Risk Team | Justworks

New York, NY

June 2022 - August 2022

- Modernized a legacy production script into a dynamic front-end tool with integrated backend and testing.
- Spearheaded 2 company-wide panels and led 2 high-impact intern hackathons, driving innovation.

Projects

Personal Portfolio Website | Three.js, React, Blender, CSS3DRenderer

- Architected and built an interactive 3D portfolio using a custom Blender scene, Three.js rendering, camera controls, and CSS3DRenderer to embed a live React interface into a 3D laptop screen
- Developed a two-app architecture with a 3D host and a standalone 2D React interface, deployed through a custom Vite build pipeline

Claude Dashboard | Python, Shell, tmux, Claude Code Hooks

- Built Claude Dashboard, a terminal-based developer productivity tool introducing state management and hook callbacks for concurrent Claude Code sessions
- Adopted by Justworks Engineering and incorporated into internal developer tooling to improve AI workflow efficiency and capture user usage metrics more accurately

Education

The Pennsylvania State University, College of Engineering, University Park August 2020 - May 2024
Bachelor of Science in Computer Science | Minor in Business Administration GPA: 3.62

DIS: Copenhagen in Partnership with the University of Copenhagen Spring 2023
Artificial Neural Networks and Deep Learning

Professional Skills

Languages: Go, Ruby, Python, SQL, Typescript, JavaScript, Java

Frameworks & Tools: React, Ruby on Rails / Sorbet, TensorFlow, Keras

Web & Data: HTML/CSS, REST APIs, Pandas

Fluent in Hebrew

Personal Interests

Mountaineering

Scuba Diving

Triathlon Training
